INTERNSHIP

Data Engineering Intern - Infocepts Pvt.Ltd (On site) | Jan 2026 to Present

- Learned and developed clear concepts on aws services, cloud infrastructure, spark etc.
- Practised and had hands on experience on end to end etl pipeline implementation.
- Completed the production level etl processing project. And did shadowing in billable projects.

SKILLS

- Programming & Infrastructure: C, C++, Python, System design
- Databases & Analytics: SQL, MongoDB, Data warehousing
- Data Analytics: ETL, numpy, pandas, Machine learning
- Cloud : AWS Services, spark , Hadoop , hive, databricks, Jupiter notebook , google cloud
- Version control : git , github

PROJECTS

1. Zomato ETL Pipeline on Databricks

Built a scalable ETL pipeline on Databricks using PySpark, Delta Lake, and Medallion Architecture to process semi-structured Zomato data. Implemented incremental loading, schema enforcement, deduplication, audit logging, and partition-based optimization for analytics-ready datasets.

2. RetailPulse Analytics Platform – AWS Data Engineering

Developed an end-to-end AWS retail analytics platform using EMR, S3, Athena, Glue, and PySpark for multi-source data processing and validation. Designed layered Data Lake architecture, real-time alerting workflows, and QuickSight dashboards for business intelligence and anomaly detection.

3. Pharmaceutical Supply Chain Streaming Analytics Platform

Built a real-time pharmaceutical analytics platform using Amazon Kinesis and Spark Structured Streaming for cold-chain and inventory monitoring. Implemented batch and streaming ETL pipelines with Hive, Sqoop, Athena, and QuickSight for batch traceability, compliance analytics, and recall impact analysis.

4. Recruitment Platform Development (2022–2024) Designed and optimized SQL databases to support large-scale recruiter–candidate interactions. Built data pipelines and dashboards to monitor user behavior, improving efficiency. Applied data cleaning and anomaly detection to improve dataset integrity. EDUCATION

- Secondary School (CBSE) : 94.2% from Sanskar Vidya Sagar, Nagpur
- Higher Secondary School (HSC) : 82.4 from St. Xavier High School, Nagpur
- Graduation (B.Tech) : CGPA : 8.1 from Symbiosis Institute of Technology, Nagpur
 - Branch - Computer Science and Engg.(AI/ML)

HACKATHON

Kritika Damodhar Nimje

nimjekritika614@gmail.com | +91 84462 28490 | +91 95117 42468 | [Github](#) | [hackerrank](#) | [linkedin](#) | [leetcode](#)

ServiceNow University Hackathon-India 2025 (Top 50 Team all over India):- ServiceNow | Deloitte

Supply chain Management System. *Tools: ServiceNow Studio, Flow Designer, App Engine Studio.*

- Designed and implemented a manager approval system to oversee and validate orders.

CERTIFICATIONS

ServiceNow (CAD and CSA) | AWS Academy Cloud Foundations

EXTRA-CURRICULAR EXPERIENCE

- Volunteer Educator – U&I Foundation (2025–April 2026)
- Student Placement Representative (2023 – April 2026)
- Social-change Intern – Avabodh Foundation (2023 - 2024)
